

About Us

We are a team founded by a retired US Army medical doctor returned to SE Asia 3 years ago to fight the same fight that he joined the Army for 25 years ago – to fight drug-resistant malaria.

Experienced team

Decades of malaria experience along with extensive, accounting and local knowledge of society and institutions.

Agile solutions

Technology-enabled platforms that allow us to track performance real-time and adjust efforts as required.

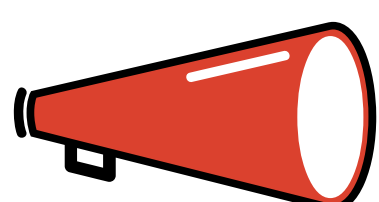

Accountability

Our innovative pay-for-performance by smart-phone report are one of our key elements that engender full accountability.

Make a donation. Help us make our programs possible with your support.

You can also help spread the word. Raise awareness to raise funds.
